

Guidelines for Events Hosted by the Forum

The Forum provides advertisement, registration and archive services to those events related to binational water issues between Mexico and the United States.

The Forum's platform does not host nor offer its services to events that are not related to binational water issues.

The Forum will host an event for anyone that requests the Forum's platform regardless if the organizer or institution are part of the Forum, as long as they are related to binational waters between Mexico and the United States.

The Forum will not be responsible for logistics and planning of any event.

The Forum will **only** provide registration services for those events **free of charge**.

The Forum will host and archive all proceedings, presentations and materials related to the event

The organizer institution or designated contact must complete the corresponding [submission form](#) to the forum in order to process its request.

The process to advertise the event will take between 3 to 5 business days. If applicable, registration link provided by the Forum will also be provided in that timeframe
